

MASTER OF SCIENCE IN MEDICAL LABORATORY SCIENCES - EARLY ACCEPTANCE PROGRAM

Overview

The Medical Laboratory Science Early Acceptance Program (MLSEAP) is a partnership between The University of Texas at San Antonio and UT Health San Antonio (UTHSA) that allows undergraduate students to earn a Bachelor of Science degree from UTSA and a Master of Science in Medical Laboratory Science from UTHSA in five years instead of six. Students in the 3+2 program will spend three years at UTSA, majoring in either biology or chemistry. After completing the program requirements at UTSA, students will then matriculate to the UTHSA School of Health Professions to complete a two-year curriculum there. The program prepares students for a career as medical laboratory scientists.

Admission Requirements

For UTSA students to apply and be admitted to the MLSEAP program, students must meet the eligibility factors listed below:

1. Applicants must be full-time UTSA students majoring in Bachelor of Science Degree in Biology, Bachelor of Sciences Degree in Microbiology and Immunology or Bachelor of Arts Degree in Chemistry who have completed at least 12 semester credit hours (SCH) of coursework at UTSA in their program of study.
2. Minimum overall UTSA GPA ≥ 3.0 and a GPA ≥ 3.0 in all college science/math coursework, which must consist of more than one science or math course.

For students to maintain eligibility in the MLSEAP program, students must complete the first three years of the curriculum for the BS in Biology program, BS in Microbiology and Immunology program or the BA in Chemistry program, including the core curriculum requirements at UTSA with an overall GPA ≥ 3.0 and a cumulative GPA ≥ 3.0 in all science coursework.

Application Procedures:

1. Students must submit an application to the MLSEAP through Allied Health Centralized Application Service (AHCAS) between April 1 and June 15. Applications are available through the MLSEAP web site (<https://www.uthscsa.edu/academics/health-professions/programs/medical-lab-sciences-ms/>). Applications can be submitted by students between 12-60 SCH in their program of study for Biology, Microbiology and Immunology or Chemistry at UTSA. Applications have to be submitted by students on or before the completion of 60 SCH at UTSA in the student's program of study.
2. Applications and support materials will be reviewed by the MLSEAP selection committee, which consists of faculty from UTHSA and UTSA. In addition to the academic criteria listed above, the following may be considered in selecting students for admission to the MLSEAP.
 - a. Work experience,
 - b. Honors and awards,
 - c. Extracurricular activities,

- d. Interest in health professions, and
 - e. Community/volunteer service.
3. Selected applicants will be invited to participate in an interview with members of the MLSEAP selection committee. The purpose of the interview is to assess the student's interpersonal and communication skills, motivation, knowledge about the health profession, maturity, character and personality.
 4. Applicants will be notified about the selection committee's decisions during the first week of May.

All application materials, the application fee, official transcripts, and all supporting documents must be received by Allied Health Centralized Application System (AHCAS) by the deadline. Applicants who are enrolled in college courses at the time of the application should submit an official transcript showing courses in progress. An official, updated transcript must be submitted upon completion of the courses.

All applicants must complete the program prerequisites listed below and no grade less than "C" will be accepted; *ALL science courses must be designated for science majors.*

Program Prerequisite Requirement

- General Chemistry I with lab (4 semester credit hours)
- General Chemistry II with lab (4 semester credit hours)
- Biology I with lab (4 semester credit hours)
- Biology II with lab (4 semester credit hours)
- General Physiology or Human Physiology (upper division) (3 semester credit hours)
- Microbiology with lab (for science majors) (4 semester credit hours)
- Mathematics course (3 semester credit hours) - must be College Algebra or higher.

Students are strongly encouraged to have taken courses in Genetics and Statistics.

Additional Program Requirements

- Completion of the online Allied Health Centralized Application System (<https://ahcas.liasoncas.com/>) (AHCAS)
- Payment of a non-refundable application fee for using the AHCAS application
- Submission of the following documents to AHCAS or Office of the University Registrar.
 - Official transcripts from each college and university currently or previously attended. Applicants who are enrolled in college courses at the time of application should submit an official transcript showing courses in progress. An updated transcript must be submitted upon completion of the courses. Note: Transfer credits indicated on another school's transcript are not accepted in lieu of submitting the original institution transcript for that coursework. Transcripts from institutions outside the United States must be submitted in the original language and must be accompanied by a NACES Members evaluation agency English translation (course by course).
- International Applicants only: Applicants from countries where English is not the official language are required to submit scores on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or Duolingo English Test. The minimum required scores are: TOEFL 84, IELTS 7.0, and Duolingo 115.

- Scores on TOEFL, IELTS, and Duolingo tests taken more than two years prior to the date of application are not acceptable.

Required Documents (if you are accepted) to the Professional Master of Science in Medical Laboratory Sciences program:

If you are made an official offer for the UT Health Science Center at San Antonio Master of Science in Medical Laboratory Sciences (MSMLS) program, all of the following items are required prior to matriculation:

- Non-refundable SHP tuition deposit to secure each student's seat for the Professional MSMLS class. Directions for this process will be sent to accepted students.
- Completion of a criminal background check. Directions for this process will be sent to accepted students.
- Completion of student drug testing. Directions for this process will be sent to accepted students.
- Student Immunization Record: All enrolled students at the health science center are required to be fully immunized with required immunizations (<http://catalog.uthscsa.edu/generalinformation/institutionalpolices/immunizations/>) prior to orientation and registration. Additional information is available on the Wellness 360 website (<https://wellness360.uthealthsa.org/services/employee-student-health/student-immunization-tracking/>).
- Final updated transcripts must be submitted upon completion of courses from each college/university to the Office of University Registrar. All foreign transcripts must be also sent to include the original transcript and the NACES evaluated official transcript (course by course).

Office of University Registrar Mailing Address:
Office of University Registrar - MC 7702
7703 Floyd Curl Drive
San Antonio, TX 78229-3900

- Evidence of current health insurance showing dates of coverage. Unless proof of proper insurance coverage is provided before the first day of class, students will be charged for a health insurance policy through the university. The fee for this policy is non-removable once the payment due date passes and is non-refundable once paid.

Degree Requirements

The Professional Master of Science in Medical Laboratory Sciences degree program is a 24-month program that consists of 74 semester credit hours. The curriculum consists of medical laboratory science courses and clinical practicums. The clinical practicums are completed at clinical affiliates in the San Antonio area and sites throughout South Texas. The courses listed below constitute the curriculum for the Professional Master of Science in Medical Laboratory Sciences.

This is a professional degree program and will not require a thesis for graduation. It is expected that students will be full-time. However, in special circumstances, a student may petition to attend part time. This request for part-time status will be reviewed and approved by the Medical Laboratory Sciences Student Progress Committee. Depending on the part-time status percentage, selection of this option could delay graduation by at least one year.

Sample Plan of Study

First Year

Fall

| | | Credit Hours |
|-----------|---|--------------|
| MLSC 5000 | Immunodiagnostics | 3 |
| MLSC 5001 | Immunodiagnostics Laboratory | 1 |
| MLSC 5002 | Clinical Applications of Quality Assessment | 1 |
| MLSC 5003 | Diagnostic Hematology | 3 |
| MLSC 5004 | Diagnostic Hematology Laboratory | 2 |
| MLSC 5005 | Diagnostic Immunohematology | 3 |
| MLSC 5006 | Diagnostic Immunohematology Laboratory | 2 |

Total Credit Hours: 15.0

First Year

Spring

| | | Credit Hours |
|-----------|---|--------------|
| MLSC 5007 | Diagnostic Chemistry | 3 |
| MLSC 5008 | Diagnostic Chemistry Laboratory | 2 |
| MLSC 5010 | Diagnostic Microbiology | 3 |
| MLSC 5011 | Diagnostic Microbiology Laboratory | 2 |
| MLSC 5014 | Biostatistics | 3 |
| MLSC 6003 | Evidence-based Medicine in Medical Laboratory Science | 3 |

Total Credit Hours: 16.0

First Year

Summer

| | | Credit Hours |
|-----------|---|--------------|
| MLSC 5009 | Laboratory Analysis of Body Fluids | 3 |
| MLSC 5012 | Advanced Special Topics in Microbiology | 3 |
| MLSC 6014 | Scientific Writing in Medical Laboratory Sciences | 2 |

Total Credit Hours: 8.0

Second Year

Fall

| | | Credit Hours |
|-----------|-------------------------------------|--------------|
| MLSC 6000 | Advanced Diagnostic Microbiology | 2 |
| MLSC 6002 | Principles of Laboratory Management | 3 |
| MLSC 6004 | Clinical Practicum I | 4 |
| MLSC 6006 | Advanced Diagnostic Chemistry | 2 |
| MLSC 6015 | Advanced Research Concepts | 3 |

Total Credit Hours: 14.0

Second Year

Spring

| | | Credit Hours |
|-----------|--|--------------|
| MLSC 5013 | Medical Toxicology/Therapeutic Drug Monitoring | 3 |
| MLSC 6001 | Advanced Diagnostic Hematology | 2 |
| MLSC 6005 | Advanced Diagnostic Immunohematology | 2 |
| MLSC 6008 | Professional Issues in Healthcare | 1 |
| MLSC 6009 | Clinical Practicum II | 4 |

| | | |
|----------------------------|------------------------|-------------|
| MLSC 6010 | Clinical Practicum III | 4 |
| Total Credit Hours: | | 16.0 |

Second Year

| Summer | | Credit Hours |
|----------------------------|---|---------------------|
| MLSC 6013 | Clinical Practicum IV | 4 |
| MLSC 6090 | Select Topic Practicum (Select Topic Practicum) | 1 |
| Total Credit Hours: | | 5.0 |
